

# MECHANICAL AND AEROSPACE ENGINEERING

November 7, 2018

George I. Fomitchev  
CEO and Founder  
Endurance Lasers

Dear Mr. Fomitchev,

Thank you for the generous gift of a laser which we are using to develop an instrument for flowfield diagnostics. The compact laser which delivers a continuous beam of intense light can be incorporated into the instrument. We are currently testing the setup and propose to eventually commercialize the product.

Sincerely,

A handwritten signature in black ink, appearing to read 'Frank K. Lu'.

Frank K. Lu, Ph.D.  
Professor, Aerodynamics Research Center  
Mechanical and Aerospace Engineering Department  
University of Texas at Arlington
